

Solutions for the High Output Laundry

SUPERIOR FINISH. Sea-lion flatwork chest type and serpentine ironers provide a crisp, superior finish to flatwork linens. Thanks to laser cut, precision machined and robotic welded parts and assemblies, YZ and YZS series flatwork ironers are built to tight tolerances to assure for precision performance.

Flatwork Ironer

-  Robust drive system, driven by a combination of belts and chains, delivers accurate consistent speeds. And throughput speeds are fully programmable for optimal processing of a variety of linens.
-  A fully programmable control with 20 programs can be networked to a spreader feeder or folder device.

-  For smooth transfers between rolls, spindle tape is used instead of canvas .
-  Steam pressure is supplied through the rolls so that the ironing surface area is evenly heated and most effective. Steam inlets are sealed with rotary joints to avoid leakage and ensure a long service life.
-  Models available in widths up to 130 inches and from 2 to 6 rolls.
