

Features

Automatic folding for primary (cross and longitudinal) folds.

Programmable folding patterns to handle various linen sizes.

Easily networked to Sea-lion feeders and ironers to form fully integrated system control.

High folding accuracy even at high processing speeds.

Stacks are neatly arranged for easy handling and downstream processing.

Optional Vision Scan to detect and discharge non-conforming items.

Flatwork Folder

ZD Folder delivers exceptional productivity, finish quality, and automation for today's demanding commercial laundry operations. Engineered for durability and easy operation, Sea-lion's advanced design reduces labor, increases throughput, and ensures a consistent professional finish on every piece.

Optional stacker arrangements include single, double or triple output with left/right, internal/external configuration.

Specifications

Machines are certified to ETL C-US standards. Some new models, including existing models that are in the process of being revised, may not be certified at the time of production. Consult factory for available certifications.
